ABOUT US

BIGGEST INDUSTRIAL HUBS OF ASIA.

Zwitterion Life Science is based in Sarigam, Nearby Vapi, South Gujarat India, which is one of the biggest industrial hubs of Asia. We manufacture tablets, capsules, injectables (SVP and LVP), liquid orals, external preparations (creams, ointments, gels, lotions, potions, serums etc.)

With a focus on leading a company powered by advanced therapy platforms and data science, our strategy is to shape the future by creating high value through unleashing the power of our people for the larger interest of our community. We are constantly engaged in transforming our culture to ensure people can fully apply their talent and energy. We are creating an organization where people are inspired, curious and unbiased.

In the pursuit of transformative treatments, it is our passion to challenge medical paradigms and explore possibilities to cure disease, intervene earlier in chronic illnesses, and find ways to dramatically improve quality of life. We seek to build trust with the society through our efforts to operate on high values ethics and integrity.

We aim to spark a digital revolution, embracing technologies, advanced analytics and artificial intelligence to help drive innovation and improve efficiency in finding new ways to expand people's access to our treatments. Going big on data, we constantly rethink and reconsider how we work, embracing agile teams and building better productivity into our company to free resources that we can invest in innovation and help boost returns

Vision

Zwitterion aims at setting the gold standard in the field of healthcare by consistently offering the best quality medicines at the most affordable prices for every citizen of the country & across the globe, thus improving quality of life. Keeping the market advancements as our benchmark, continuous efforts shall be made with a desire to excel and fulfill our purpose.

Mission

We strive to develop and advance promising pharmaceutical products that address real health issues and improve quality of life, while providing value to our partners, all within a supportive and rewarding work environment for our employees. We envision becoming a globally acclaimed pharmaceutical company through excellence in technology based on world-class research and development; with an introduction of a wide portfolio of Pharmaceutical products
